RESEARCH EXPERIENCE

Dimensions of Biodiversity Distributed Graduate Seminar (DBDGS) Participant

University of Connecticut, Storrs, Connecticut

August 2011 – August 2012

Participant in DBDGS, an innovative approach for synthesizing knowledge about biodiversity with a focus on training the next generation of researchers for higher levels of scientific collaboration. Collaborated with faculty and graduate students from the University of Connecticut and other institutions (national and international) in an effort to explore relationships between environmental drivers and biodiversity.

Field Research Leader

Luquillo Experimental Forest, El Yunque National Forest, Puerto Rico
May 2008 – August 2008

Led the field component of a study on the metacommunity structure of invertebrates along an elevational gradient. Contributions included organization of field materials, development of data collection schedule, and mentorship of two undergraduate students.

Field Research Assistant

Tiputini Biodiversity Station, Yasuní Biosphere Reserve, Ecuador
April 2007 – July 2007

Assisted with a long-term primate project, Proyecto Primates, directed by Dr. Anthony Di Fiore. Duties included collection of ecological and behavioral data of free ranging white-bellied spider monkeys (*Ateles belzebuth*) and woolly monkeys (*Lagothrix lagotricha*), and a monthly collection of phenology data of food-plant species.

Field Research Assistant

Cocha Cashu Biological Station, Manu National Park, Peru
May 2006 – August 2006

Assisted K. Nicole Gibson, Yale Ph.D. candidate, with data collection of ecological and social factors that influence male reproductive strategies in free ranging white-bellied spider monkeys (*Ateles belzebuth*).

STUDENT MENTORSHIP**Independent Study: Kathryn Durant, Ryan Hall, and Rachael Hyland**

University of Connecticut, Storrs, Connecticut
January 2012 – May 2013

Reproductive phenologies of select species and ensembles of phyllostomid bats from northeastern Costa Rica. Resulted in two presentations and a manuscript submission in *Journal of Mammalogy*.

Research Experiences for Undergraduates: Lauren Jones and Nicole Rivera

Luquillo Experimental Forest, El Yunque National Forest, Puerto Rico
May 2008 – August 2008

Metacommunity ecology of litter spiders along an elevational gradient in the Luquillo Mountains of Puerto Rico.
